Sainsbury's Distribution Centre

## CASE STUDY

### GUTTER LINER

After years of water ingress, spiralling repair bills and loss of stock - Sainsbury's decided it was time to take action with their failing gutters at their distribution centre in Scotland

## Gutter Liner Options / Considerations

Sainsbury's considered a number of options to resolve the ongoing gutter issues, HD Sharmans "Plygene gutter lining system" was the chosen solution.

Industrial Roofing Scotland have been an approved "Plygene" installer for over 6 years and in our experience offers a robust, long term solution for problematic gutters.

BEFORE

AFTER

## Sainsbury's Distribution Centre CASE STUDY Gutter Liner

## Method of Works

Working At Height Safety.  
IRS staff harnessed to the Existing Roof Safety Line for the duration of the works.

- The gutters were cleaned out in preparation for the new gutter lining system.

- The new "Plygene" liners were rolled out and fitted into the existing gutter profile.

- The liners were mechanically fixed into the gutters using stainless steel roof fixings.

- Wind uplift straps were installed as per manufacturers guidelines.

- Syphonic Outlets/Stopends were installed using heat welding process.

- Sainsbury's now have trouble free gutters with the added comfort of a 25 year manufacturers guarantee.
